giving this 5 stars purely because the other review was just some entitled gamer thinking that only older people play games when actually a whole range of people at any age do.great game for kids im sure, maybe someone older will enjoy it too.

Meh

Stays true to the Ben 10 reboot show, bland and repetitive with a side of unoriginality and boringness. If you haven't already realised, this game is a hot stinking pile of dog **** and a buggy mess. It's just another cash grab from Cartoon Network. Remember when CN cancelled Generator Rex just because it wasn't getting a lot of toy sales? Thats what CN (and most other cartoon companies) has turned into, money maniacs who care more about money than having quality products or people enjoying their things. I give this

Buy it so telling you spend your money wisely so you don't get disappointed some of the reviews say bring back the old Ben 10 but make your own choices okay guys.

WORST POUSING GAME EVER

Roblox has more heart than this, its honestly like a worse version of a free roam subway surfers, 0/10 Ranger Towers. The 360 Ben 10 Games were better. Where the f is the giant alien guy. I want to feel big and powerful destroying cities, not like im controlling a 'lesser able' toddler version of Ben. Now im going to play Banjo Kazooie cuz even that has better dialogue and graphics....

fair enough

as a child I loved the original ben 10 tv show, I loved alien force and ultimate alien, and still they take me to my childhood, for this game I have to be honest, for what I have played of it so far, it is fun and the art style and characters are very good, for a reboot inspired game, and for younger views of the show it fits every aspect of what a child friendly game should have, and even going into the early teens,

Desperately under-budgeted

I realised my save was soft-locked when the NPC I needed to advance a main quest wouldn't spawn in, even after re-installing the game. This was when I quit, and I don't intend to restart. I think the aching lack of budget is what will stick with me, from the missing assets, to how you fall through water like it's air, to the ground despawning under your feet. With its routing options, facile difficulty, short play time, and only being reliable if played in a single sitting, Power Trip might have some life as a fairly pleasant speed game,

So this game is great and all but the lack of solid colision and resuse assets for kevin hell even his damn transformation effect is the same colour as bens and even the omniguard is in the exact place where it is on bens model and i love ben 10 so i will be critical if it means this game and future ben 10 titles can be amazing

Could be worse, but not excuseable

This wasn't a little indie game made exclusively out of the devs passion to make a good game with a good story, this had several companies benind it, meanwhile it's going for £25, with one version going for £40, this is barely worth £10There are worse games out there for more money, but this just feels unfinished, and like yeah, it's a kids game, but why would that excuse quality? You can make a kids game that's good, not just good but one that adults can love and play with their kids and teach each other, this just feels kind of
