Console

Pretty good chill vibes

The simglish voices make it feel cheap, but if you like low stakes and chill vibes (like a Short Hike), with relaxing music and basic collectathon/friendship levels (and can play as a black woman, unlike the sad 1 star triggered culture war losers who review bomb this stuff), this is a pretty good time. The biggest complaint I have is the dialogue delay makes it feel sluggish, so long conversations drag on. Lmao at the dude complaining the greek gods aren't realistic enough lol

12/12/2024

Console

OK

Peaceful exploration game, pleasant enough. But dreadful voice acting, zero challenge, and something about the way the characters are drawn is deeply disturbing.

AngryScotsman X

22/03/2025

Console

Pathetic

Gamepass price increase and yet another dingy indie title. Xbox has fell off BIG TIME.

Reillyington86

20/03/2025

Console

Creepy looking characters.

No wonder Western Game Studios are shutting down and Japanese/Korean/Chinese are thriving if this is the kind of garbage they make. Even my long dead Grandad came back in ghost form to slap me for trying this game out.

DONT BOTHER

Terrible absolute train wreck. Do they even play these games before launch.

**ChrispyLoco**  
21/03/2025

Console

Disregard any positive reviews

My hope was this would be another Stardew, or even a Coral Island clone, but sadly this is just a safe, souless, "modern audience" cashgrab that is only being reviewed highly by the devs and their bot accounts.

More DEI dung...

Who are games like this even made for? It's certainly not made for people that ACTUALLY like to play games...Everyone that took part in the making of this game (and other games like it) should get a different job that is far away from and has nothing to do with games or media all together!

Really chill vibes

The music and atmosphere are great. Would have liked a version of it that was better voiced.

**LadyLou8731**  
26/03/2025

Console

Feels pandering (Coming from a very "woke" person)

The idea is fine, albeit pretty unoriginal, but my main issues lie with the characters and their soulless designs. They are not historically accurate at all and are just plain ugly, clearly not having much thought put into them. It seems like they sorta slapped a couple of different skintones onto them, and a few different body types too, to earn their 'woke points' and called it a day. I'm not saying that you can't have diversity in a game like this, a variety of skintones, body types, disabilities, even sexualities, but with the depth (or lack

Console

Chilled out, quirky, no challenge at all!

I had no expectations of this game but, I actually enjoyed it. The characters are quirky and funny, the conversations and mannerisms were entertaining. There is no challenge in the game whatsoever and I don't think there was intended, it just a relaxed adventure. Having said that I'm only playing it on game pass and would never buy a game like this, there is no replay value. It makes me think of point n click adventures, except there is nothing cryptic or puzzling about the tasks you need. If you're feeling tired or ill and just

Bambam027777

21/03/2025

Console

The game is fine

Most reviews claiming dei are just review spamming to push a political agenda. Almost all the character designs are a resonable interpretation of what the helenic gods could look like in the modern world. The only character design that I have an issue with is that Hermes, the god of travalers and thieves, messenger of the gods, is fat. A reasonable interprotation might of been an athlete or someone that is thin and crafty. If you can ignore the existance of a fat character by using the excuse of magic and divine powers,

Very chill game. Slightly repetative. Hooked me. Loved it. Completed before review.

TougherActor240

07/12/2024

Console

Hugely enjoyable adventure game, highly recommended

Intriguing completely original storyline, gorgeous animation. Calming atmospheric soundtrack. The attention to detail is lovely and the longer you play, the more you notice. I haven't played another game where progression is linked to your level of friendship with characters. And not just ordinary characters as you'll see but not going to spoil that for you as that's a big part of the fun. What really sets this apart in my opinion is the genuinely original storyline and social interaction between your character Alex, and the other main
