BEST GAME

This game is all about strategy and plants which fight zombies and I sat on this for hours on end and did not get bored one tiny bit and the game is very fun because you have to complete levels to get different flowers like the cherries which blow up but i still dont know what to do with the coconuts because i just dont what they do but i do still recommend that you buy this game the 10 pounds it worth.

Some new ideas and the game is great by the way

The game is amazing and I got some ideas for it like the fire gatling pea, new zombies like the flag zombie with a conehead or buckethead, ice threepeater, tomato pult, apple pult, zomboids and more worlds like in plants vs zombies 2
