This game makes South Carolina look small

I saw my cat playing with a little rock, the rock had some writing on it. It said plesalse i was confused so i looked in the urban dictionary to see if i could find 'plesalse'. I couldn't find it except i found a different word 'peg' i didn't know what peg ment ether at first i thought it was a song but i found no song titled 'peg' so then i thought that it might be the name of a game so i serched peg on the Microsoft Store i found a titled peggle. I was intrigued so i decided to play it and this ended up being the best decision of my

Despite its simplicity, this is a fantastic game, offering fun for all ages. I actually got this lil gem free with Games with Gold, but really glad that it went on EA play as it truly deserves a wider audience. Best to play this before Peggle 2 because the devs have made significant improvements; Visually, this seems grainy in comparison, but defo worth a play.

This game made me a crippling gamble addict

So much luck is involved but at the same time so much skill is involved so my brain has a sensory overload

Nostalgic!

This is a very nostalgic game to me. I first discovered this game on my sister's old 360 in 2014 as a five year old child and really hated the characters and graphics at the time, but I grew to fully love it all! I also love playing online too. I'm so glad EA included it in their EA Play service with Game Pass Ultimate and I just need Boom Boom Rocket on the EA Play subscription service but we will see.

I used to play peggle as a kid... Now i get pegged as an adult 🍷👉The nostalgia feeling does not compare to the feeling of mint tingle cream burning my ring piece.I can confirm peggle is in my heart forever, and sausage in my \*\*\*\*\* pipe forever.

Not made by EA

Made before EA bought popcap. pretty fun. Plus the microtransactions are actually content, not cosmetics.
