Truly a turning point in videogame development. My Reformed-Orthodox Rabbi Bill Clinton, along with visionary demolitions expert George W. If you thought Dark Souls was hard then strap in for this; My Neighbour Peppa Pig by Studio Ghibli is literally unplayable by mortal hands, and that's a good thing. This experience was amazing to the point that i almost fainted while playing. It well and truly redefined the meaning of life and death, has a man really lived if he hasnt left a legacy like this game behind or has a man really died if he hasnt lived indebted to our savior lord peppa pig christ. Like a wise man once said 'when one tries to find a path to enlightenment, he must endure the best and worst life has to offer'. My Friend Peppa Pig – A Very Serious Review

This game is an instant classic, with retro-styled graphics and a rich story and gameplay loop seamlessly intertwined, mirroring white nights by Fyodor Dostoevsky.Its difficulty is unrivalled even compared to Dark Souls. The game is constantly deconstructing how you deal with each combat encounter. The Madame Gazelle boss fight is challenging to its core the limited weaponry and the damage of her shotgun makes this encounter impossibly strenuous.The developers cackled maliciously as they sat in front of their long script

Frustrated children.

Kids wanted to get all achievements, Peppas little brother got his dino toy stuck in the tree, but the tree is right at the edge of the screen, The kids walked off the screen and it cancelled the mission and the teddy was reset back to the house with the little brother, no way of restarting this one, and how do you get to potato city?!? seems a little lazy effort as this game is for small children so it is like it doesn't matter. such a disappointment. frustrated children, which now means frustrated adults, too. My life has now been fixed.

I am in my early twenties, I have had a rough life and have taken to being a total loser and party animal. I have come across this game, rather peculiar thing. It has set the fires alight inside me and encouraged me to fix my life. I have given up gambling and now have a savings account, my relationship with my wife is better than ever now that she only has one black eye. My kids are happier than ever now that they're not being taken away from me. Now I only take recreational drugs every other day rather than every day. 10/10

4 stars!

1000gs in about 30 minutes is 4 stars alone. Also a 38 year old going through this in front of his kids caused 30 minutes of amusement for them.

South Park for kids?

It's basically a copy of the South Park games: Playing as a new person with no name and interacting with existing characters around an open(ish) world.

Console

Good game, with mature themes

Overall, this game is extremely suitable and enjoyable for teens and young adults. However, it does explore many mature topics, such as the protagonist, you, trying to fit into a disregarding society. Furthermore, the is an underlying sense of racism, with daddy pig handing peppa a strawberry ice cream, and I, a black mouse, one of chocolate flavour. This behaviour should not be normalised by pop-culture such as this otherwise fantastic game. Thank you.

Pork, uh, park yourself on the couch and support this game otherwise the team might get the chop and there'll be no sequel and people will squeal in dismay. I bacon,,, reckon this is the best game ever. It just crackling... Cracking. Anyway, time to trot off, I don't want to boar.

Lack of endgame content

This game could be a 5/5 if there was more to do after beating the main storyline, all my favourite games have been very similar to this in terms of gameplay and this had the potential be one of the greats, however the severe lack of endgame content after beating the main campaign really drags it down, i feel like a round based zombies gamemode or a multiplayer battle royale could really boost the overall rating of this game, a mode where me and my friends can have hours of endless fun on top of the top tier campaign

In simple terms this game is brilliant. The atmosphere in every single moment is perfect. Along with the soundtracks and other noises like Papa Piglet's snort. The developers have got this game spot on with this as it really throws you into the Peppa Pig Cinematic Universe. Then we get to the actual gameplay of this magnificent experience. This is indeed an experience, not a game. You'll only understand what I mean when you play it. With key moments that are displayed perfectly and with clever use of soundtracks, slow
