Perfect Game!

I have never played such a perfect game it has such great details relating to the lore of the pups that I have become very invested into the backstory of them all. The gameplay is also immaculate that I think this should be game of the year and possibly the century since there is no faults in it and I am addicted to this. I would recommend this to all my friends but I have none since I lost them all due to playing this game too much but that's ok the paw patrol are my new friends.

AMAZING WOULD RECOMMEND FOR YOUNG MOTHERS

Easily one of the best games I've ever played. It has amazing graphics. 4k in fact. Amazing storyline. Truly heart breaking moments. Emotional damage. I would recommend this. To literally anyone. 99 To 0. It is especially good for children. You can't sit still and have ADHD. And you don't want them to play gory video games. Such as. Princess Disney Princess This game is arguably better. Than Dark Souls. As one of the best adventure games I've ever played.

I believe this game is a threat to all adventure action games. The missions are just fantastic and Chase is kinda fit. As well as this it cured my ligma by Ryder licking my balls which was a much needed service. This service would greatly benefit young children as the people who are responsible for making this masterpiece believe it helps cure ligma in children. They would not go to prision for child malestering but a service humanity greatly needs. Thank you paw patrol you truly made my 2021.
