Lil GREATor Game

4-5 hour chill but fun open world adventure game. Has a fair few funny moments with wholesome and whimsical characters. The map is surprisingly big but navigating it is simple and fun. I was sad to see the end of the game.

Made my cold dead heart feel again

I've developed the ability to have feelings again. Great little game, I'm off to make some cardboard monsters now.

Console

Lovely and wholesome

Charming story about growing up and looking back on your adventures with your sibling. Could use a map, though!

Superb Gameplay

I'm really impressed with how much game you get for 600MB and the gameplay (jumping, climbing, melee, gliding) are all intuitive and perfect to be honest. I wish ever 3D platformer is like this. My only issue is with the sheer amount of dialogue interactions but they can be easily skipped if you're not bothered or read through if you want the story so non-issie I suppose. All round great title and very suitable for younger children (although I'm a 43 year old bloke and I enjoyed it).

Zelda for children.Back in my day, we got molested by zombies after being frozen in place by a soul piercing, stomach turning screech.It was severely traumatising & we liked it.Also, get all 4 bracelets ASAP, they're 500 each, so 2000, and they give you infinite stamina, also as a completionist, don't worry about breaking everything for the achievement, you get an item that tells you what you've missed, I suggest still breaking as much as you can - because it'll make clean up much easier on you

Great lil game

Very chill adventure game, a fun 5 hours to complete.

Cute, relaxing and fun 😊

A really laid back platformer that has the best music, enjoyable gameplay and a meaningful story. If you have Game Pass, don't miss out on this gem .

Decent, easy achievements, reminds me of the game 'short hike' which i liked very much

Console

Not much to say that hasn't been said, cute game

If you want extensive gameplay mechanics, impossible challenges, and a story that drags on for weeks, this isn't the game sweatylt's a cute game, it's not too hard, you can literally beat it the day you started it (I did), it's very "a short hike", which if you like this you should also definitely play, obviously there are some differences, neither is inherently better or worse, just different, and both lovelyToo many games try to be fast-paced and full of mechanics that take years of learning to perfect your ability to play, with

I miss childhood

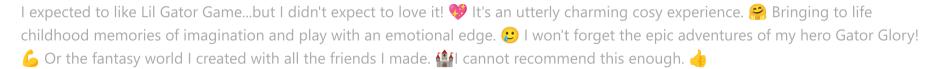

What I thought from the thumbnail was a knockoff Croc game ended up being an incredible little hidden gem. This is so heartfelt and the writing is superb, tear-jerking and laugh-out-loud. I became completely caught up in this little imaginary world of cardboard monsters. Basically, when I put on a ninja headband and he started doing the Naruto run, I knew I was rating it 5 stars. I ULL GATORHowever, any way to check your quests (literally just a list of them as a tab in the item menu) would have been very welcome,

Don't judge a book by...

What a charming game. It takes obvious inspiration from Zelda & A Short Hike to name a few but still stands on its own. Surprisingly funny writing and decent gameplay kept me engaged and the exploration was fun.

My only criticism is the camera is very close to the character but it's not a dealbreaker.

Beautifully charming and unique

At first, I didn't really expect much, but I was pleasantly surprised! They tackled really complex themes that really hit close to for me. As someone in the later stage of high school, I would put myself between Lil Gator and Big Sis. I understand wanting to have fun despite the burden of growing up, and this really made me smile. Additionally, the mechanics are fun and easy to learn, and the characters are fun to talk to! Do give this game a go.

Short but Sweet Lil Game

Very cosy, relaxing game with some elements of open world mechanics found in other popular games. However, this is far more laidback, kid friendly with the odd moments of being lost. The game lasts about 5-8 hours depending on how quickly you go about finishing the story. Played it on Switch and will play it again now on Xbox PC. Nice addition to Game Pass too!

One of the most relaxing games ive played.

So, I play a lot of Tomb raider, Life is strange and TLOU and I began playing this for a break. I'm honestly really glad I did because it's so much fun and an amazing game for people looking for a break of fast paced games or just for people who love relaxing games! This is a 10/10 game and anybody who made it did an amazing job.

Really enjoyable game with a super relaxed vibe and awesome graphics, writing and music. The price is a little high though; you can 100% it in 4 hours... It's a great 4 hours though, and compared with the cost of going to a movie it's not so bad I guess.
